    Major: Slavic Languages and Literature, Czech Language division
    Minor: German as a second language
    Overall percentage/grade/GPA: 83.7% / Very Good / 3.35

- Latest Personal Projects:

- **My Personal Portfolio (Web Project)** (Go To Website) (Go To Codebase)**:**
    - **What is it?** A custom-built portfolio that was built using only vanilla HTML, CSS3 and JavaScript. It's a static website, that acts as an online digital business card to showcase my work in Web Development, my skills, and some personal information. Everything on there is coded by me from the ground up. The design itself is inspired from a template I came across online that I liked, but I implemented it in HTML and CSS myself, then came up with the animation ideas and some other additions to make it feel livelier.

- **Czech – English Word Game (Web Project)** (Go To Website) (Go To Codebase)**:**
    - **What is it?** A word game for students of English and Czech to practice their vocabulary, keep track of new words learned and compete with the top 5 players to show off their vocabulary knowledge
    - **What is the stack used?** Vanilla JavaScript, CSS3, HTML, Node.js, Express.js and MongoDB
    - **What are the cloud services used?** Mongo Atlas cloud (DBaaS) and Heroku (PaaS)

- **Timesheet (Web Project)** (Go To Codebase)**:**
    - **What is it?** A tool that keeps track of the timing of the daily, weekly and monthly tasks that an internet assessor works on
    - **What is the stack used?** Vanilla JavaScript, CSS3, HTML, Node.js, Express.js and MongoDB
    - **What are the cloud services used?** Mongo Atlas cloud (DBaaS)

- Experience:

- **Freelance Translator at Gengo (Freelancer) (April 2020 – January 2021)**
    As a translator at Gengo, I professionally translate from English to Arabic and vice versa.

- **Internet Assessor at Lionbridge (Independent Contractor) (June 2019 – October 2020)**
    As an Internet Assessor at Lionbridge, my main duties are to evaluate and rate search engine results and to provide search engine companies, that work with Lionbridge, with detailed, professional feedback and ratings on their search results, and with information to enhance their search engines and overall user experience.
